Dr. E. H. Hill

American School of Classical Studies
Athens, Greece

Dear Mr. Hill:

It will surely give you much satisfaction to have with you in Athens during the coming winter Professor Allen B. West, the bearer of this note. He is especially interested, as you probably know already, in the Athenian quota lists and in other epigraphical material.

In addition to this he has been doing considerable work with the coinages of the Chalcidic League and of the neighboring districts of Thrace and Macedonia, an important field because of what has already been done by Monsieur Svoronos.

Should there be any difficulty in his obtaining access to the collections of the Numismatic Museum, won't you use your kind offices for him as you did for me?

Aside from his scholarly accomplishments you will find Professor West very charming personally and I am confident that his stay in Athens will prove mutually stimulating. I have too lively a recollection of the happy months spent beneath your roof-tree to be able to keep from envying him his good fortune in being able to spend the winter as he plans.

Very sincerely yours

SPW C

Secretary

March 13th, 1926

B. H. Hill, Esq., Director
American School of Classical Studies
Athens, Greece

Dear Mr. Hill:

I am enclosing a copy of Mr. Gallatin's appointment as delegate for this Society at the dedication of the Gennadius Library.

Mr. Gallatin plans to reach Athens via Egypt, but is not certain that he will be able to be there in time for the ceremonies. Should he fail to be present, Professor Allen B. West has been asked to serve as alternate to represent our Society in Mr. Gallatin's stead.

I am availing myself of this opportunity to enclose a review which may be of interest to Mrs. Hill, if she has not already seen it.

My thoughts often go back to the very happy days spent in Athens, and to your many kindnesses to me.

Sincerely yours,

Encs.

Secretary
